

Acumen Style Sheet

Heading hierarchies, see Headings.

Preferred spellings, see Spelling.

He/she/they etc, see Grammar.

Serial commas etc, see Punctuation.

File management

Always place contract/agreement type and year at front of file. Place inhouse file notes – [REFERENCE], [ACUMEN] etc – at end of note.

Remove month and version numbers – e.g.: “(October)”, “v2.2 22072015”.

Remove all spaces and replace with underscores.

All filename parameters (contract type, year, document type etc) separated by underscores.

Use all-caps for all parameters – e.g. CONTRACT, SCHEDULE, REFERENCE, QLD

Spell out document types – e.g. SCHEDULE, not SCHED.

Reasons: aids file management, minimises confusion and duplication; means hyperlinks don't have to be updated every time an agreement or contract is modified.

Examples:

Client–Architect Agreements:

- [REFERENCE] CAA-2009-v2.2 22072015
becomes
CAA_2009_[REFERENCE]
- CAA-2009_Sched1
becomes
CAA_2009_SCHEDULE_1

ABIC contracts:

- [REFERENCE] CONTRACT ABIC SW-2011 H Qld (October)
becomes
ABIC_SW_2011_H_QLD_CONTRACT_[REFERENCE]
- [ACUMEN] SCHEDULE for ABIC SW-2011 H Qld (October)
becomes
ABIC_SW_2011_H_QLD_SCHEDULE_[ACUMEN]

Editorial notes to authors/editors

Surround note with three asterisks, e.g. ***editor: please insert table here***

Capitalisation

Minimal capitalisation. So, 'Canterbury University' but 'the university'.

Commonwealth, State, Territory and Local Government, but when it appears by itself, lower-case government.

Initial caps for both parts of a hyphenated word in a title, e.g. Self-Actualising

Numbers

0–9 spell out (i.e. seven)

≥10 use digits, except at the opening of a sentence

1000 (no comma), 10,000 (comma)

date format: 16 July 2010

'30 to 35' not '30–35'

Percentages: '5 to 20% / 3%', not 'Five–20 per cent / three per cent'

Space before units of measurement, so '22 mm', '30 kWh' '6.30 pm'

Abbreviate common units of measurement, so '2 m', *not* '2 metres' or 'two metres'.

Headings

Use sentence case – e.g. 'Impacts associated with cell manufacture'

Acumen notes have only three heading levels: HD1, HD2, HD3. (Note, in the Acumen CMS Content section these are rendered as <h4>, <h5>, <h6>)

Grammar

The singular pronoun 'they' – that is, 'he/she' or 'he or she' vs. 'they' should be used consistently in a manner which avoids confusion. The Chicago Manual of Style notes:

On the one hand, it is unacceptable to a great many reasonable readers to use the generic masculine pronoun (he in reference to no one in particular). On the other hand, it is unacceptable to a great many readers either to resort to non-traditional gimmicks to avoid the generic masculine (by using he/she or s/he, for example) or to use they as a kind of singular pronoun. Either way, credibility is lost with some readers.

The author can decide for him/her/themselves which is more appropriate. For 'traditionalists' though, please note this quote from Shakespeare's Romeo and Juliet: 'Arise; one knocks. / Hark, how they knock!'

Punctuation

No comma before the final 'and' in list unless it helps with clarity.

Space, full stop after initials, so 'M F Mohamed'
